MAKE ROOM

FOR KINDRED

A room for you

As the day draws to a close, we look forward to these moments when we shut the door on the chaos of life and settle in for the night.

The bedroom is our place for contemplation, a room for relaxation, a sanctuary of quiet and stillness.

A room where we embrace the true colours of our personality and reveal a little piece of ourselves behind closed doors.

Designed to inspire

We don't believe limited space, awkward footprints and varying house types should mean a compromise on your bedroom's style.

Your bedroom furniture should seamlessly balance design and functionality, and with that in mind, our collections combine beautifully finished modern and classic furniture with clever storage.

You deserve a space that gives you room to breathe at the end of the day. Considering the dimensions and imperfections of real rooms, we designed our bedrooms to portray real life scenarios.

We understand that bedroom furniture should be versatile, flexible and fit perfectly within modern life.

URBAN STATEMENT

Imagine urban cool. Style 1 shows an impressive wall-to-wall storage solution with a versatile workstation tailored to fit an urban lifestyle. The reclaimed timber mixed with shades of grey and tweed textures create a modern city atmosphere. This is a masculine hipster twist on a master bedroom and a superb way to make use of a larger space within a docklands apartment.

UNDENIABLY ECCENTRIC

Style 1 fully embraces the architectural features of this Georgian townhouse by utilising the alcoves from floor to ceiling. With the addition of feature storage units, it maximises space and uses the full height of the room. This bedroom has various distinctive styling elements, making it sophisticated and slightly edgy in character.

From the feature wall panelling, which draws the eye in, to the striking tones of the anthracite and mustard, everything in this room has been carefully considered.

BOHEMIAN SANCTUARY

Inspired by a tranquil boutique hotel, style 2 cleverly combines relaxed bohemian chic with soft cashmere shades, matt finishes and rich walnut woodgrains. The timeless earthy tones, soft linen, hessian textures and crochet detail give it a relaxed atmosphere.

Accentuating the wall-to-wall wardrobes, a functional display unit creates a focal feature, making the most of a modest-sized master bedroom within a contemporary townhouse. This style reflects the fun-loving sociable personalities of those who don't take themselves too seriously.

PURE PERFECTION

The perfect blend of function and finesse, style 1 combines feminine charm and functional linear design, ideal for the modern-day woman. A delicate touch of glamour is created with the gloss white, plush velvets, silver hues and crystal details.

This period property has been given a more contemporary feel by creating a multipurpose wardrobe design, cleverly built around a disused chimney breast. Whether preparing for work, going out for the evening or getting ready for the gym, this is the perfect setting for a stylish active lifestyle.
